Program #1
Intervention Program Name: West Baltimore Collaborative
Category of Intervention:

- Behavioral Health Integration
- Care Transition
- Home-Based Care
- Mobile Health
- Patient Engagement & Community Education
- Other (Please describe)

Short description of intervention:

The WBC provides care coordination services to Medicare patients whose chronic illnesses have led to frequent utilization at two or more West Baltimore hospitals. Patients receive in-home care coordination and care management for 90 days to address medical and social determinant of health needs. Services include health education, assessment of barriers to health, care planning and goal setting, medication reconciliation, assistance with medical appointments, transportation, and navigation to social/support services and community resources. The ultimate goal is the successful transition to primary or specialty care medical homes with sufficient behavioral health and other support to address social determinants of health.

If more than 3 programs have been funded, please copy and paste additional "Program sections" on additional pages.
